HTML Entity List

Complete list of HTML entities with their numbers and names. Also included is a full list of ASCII characters that can be represented in HTML (i.e. printable characters).

- ASCII Characters
- ISO 8859-1 Characters
- ISO 8859-1 Symbols
- Math Symbols
- Greek Letters
- Miscellaneous HTML entities

ASCII Characters (Printable)

Only printable characters are displayed as control characters (0-31) shouldn't be present in HTML pages since they have no visual representations.

| Character | Entity Name | Entity Number | Description               |
|-----------|-------------|---------------|---------------------------|
|           |             | &#32;         | Space                     |
